

## SATURDAY 20 JUNE 2009

**SAT 19:00 Crude Britannia: The Story of North Sea Oil (b0017r9j)**  
Episode 1

Three-part series combining archive footage and eye-witness accounts to tell the dramatic narrative of North Sea oil and gas from the 1960s to the present. It charts the decades when the country made the most of its North Sea windfall, with scarcely a thought about where it came from or of the men and women who brought it to us. Through the story of oil, the series offers a fresh perspective on British politics and society and a timely insight into the state of our economy today.

Forty years ago, Britain was poised on the brink of an extraordinary discovery - oil, billions of gallons of it, deep beneath the harsh waters of the North Sea. This opening edition gives a voice to some of the men who made that discovery and who risked their lives in the North Sea to get the oil ashore.

There is a tale of dramatic risk-taking and high politics as the government and the oil companies raced to get their hands on the bonanza. The promise of enormous riches inspired technical innovation on a scale never seen before, but did the haste of the North Sea project put at risk the lives of men who were working in some of the most extreme conditions in the world?

**SAT 20:00 Jackie Stewart: The Flying Scot (b00jw9gn)**  
Sir Jackie Stewart is one of Britain's all time great sporting personalities - winner of three Formula 1 world championships and 27 grand prix, and ranked as one of the ten greatest racing drivers of all time.

With his black cap and sideburns, he became an unmistakable icon in the glorious era of style, glamour and speed of the 1960s and 70s.

Venturing beyond the world of motor sport, this documentary is an insight into the triumphs and tragedies of Stewart's eventful life, and includes contributions from friends and colleagues such as Niki Lauda, Emerson Fittipaldi, Sean Connery, Murray Walker and Edsel Ford, as well as the last ever interview with the late Ken Tyrrell, without whom Stewart's career might have taken a very different turn.

Produced by Stewart's youngest son Mark, the film is enriched with family photographs, home movies and scrapbooks kept by Lady Helen Stewart that document her husband's career.

**SAT 21:30 Jim Clark: The Quiet Champion (b00jw9cw)**  
A comprehensive, entertaining and moving portrait of Jim Clark, one of the most talented and intriguing characters of the 1960s. From unlikely beginnings on a farm in Scotland, the introverted and media-shy Clark emerged to become the most successful racing driver of his time, and forged a reputation as one of the all-time great heroes of motor sport.

Using previously unseen archive footage, testimonials from friends, family and former colleagues, the film tells the extraordinary but tragic story of an enigmatic racing legend.

**SAT 22:30 Graham Hill: Driven (b00bv14q)**  
Emotive documentary portrait of a sporting legend who lived and died during a time when sex was safe and motor racing was dangerous!

Graham Hill was an eccentric, charismatic Englishman from a bygone era of sporting endeavour. With great determination he won the Formula 1 World Championship, the Indy 500 and the Le Mans 24 hours race, thereby achieving the 'triple crown' of motor racing - a unique feat that remains unmatched to this day. Graham also won the glamorous Monaco Grand Prix five times during an era when drivers routinely met violent death. Away from the circuit, he was a raconteur of hilarious proportions, a dashing figure with a keen eye for the ladies. He was an irrepressible free spirit who simply didn't know when to quit.

Ultimately, it was to be his undoing.

Graham's illustrious racing career spanned three decades, which at its height saw him routinely slugging it out with fellow F1 champions Jim Clark and Jackie Stewart. Close friends yet intense rivals on the track, they were the 'Three Musketeers' during a golden era of motor racing. But what was the truth behind Graham's popular public image? 30 years on from his death, his family, close friends and former colleagues paint an intimate, revealing and entertaining portrait of a sporting hero tragically killed in a plane crash in 1975.

**SAT 23:30 Cobra Ferrari Wars (b0074n1j)**  
The date is 1959. The place is Le Mans racing circuit, France. A little known Texan racing driver, Carroll Shelby, wins the most prestigious event in motor racing at his first attempt and is universally acclaimed as one of the best drivers in the world.

But Shelby had a secret that was to prevent him ever driving again.

This is the comeback story of a man driven by the desire to beat the world on the race track, and specifically to beat the might of motor racing, Ferrari. From his base in California with only a team of hot rodders for support, in three years Shelby put together a car that would take on the world and win. The Shelby Cobra, as it was known, is still an automotive icon today.

Featuring a great 60s soundtrack and using true-to-the-period split screen effects, this film is for car fans and casual viewers alike.

**SAT 00:30 In Search of Speed (b0074qym)**  
The Battle of Bonneville

The Battle of Bonneville focuses on six dramatic years in land speed history that saw Craig Breedlove and Art Arfons go head-to-head in a death-defying land speed duel. Two men locked in a near-lethal contest which saw the 400, 500 and 600 miles per hour barriers broken. The programme features interviews with Arfons and Breedlove, friends, family and members of their teams.

Farm-boy Art Arfons was affectionately known as the Junkyard Genius. Art famously built his record breaking car from pieces of junk and stock-parts, including the powerful J-79 aircraft surplus jet engine which he bought from a scrap dealer. When he first ignited his restored J-79, Art obliterated his chicken shed. In his car The Green Monster, an angry, over-powered beast, Art captured the world record three times only to have it snatched from him on each occasion by Breedlove. In 1966, Art became the first man to survive a crash at over 600 miles an hour.

Smooth-talking Californian hot-rodder Craig Breedlove, in his cars Spirit of America and Sonic 1, was the first man to break the 400, 500 and 600mph barriers on land. At the tender age of 24, Craig Breedlove was so moved by President Kennedy's plea to 'ask what you can do for your country', he decided that his goal was to recapture the world land speed record from the British. Breedlove persuaded Shell Oil to sponsor his vision and, backed by a team of hot-rod friends, he went on to build his car Spirit of America, arguably the most beautiful land speed car ever built.

This is a story of a dramatic showdown between two land speed legends who displayed extraordinary ingenuity, ambition and bravery.

**SAT 01:30 Leonard Cohen Live in London (b00l6dhn)**

**TUE 19:30 Yellowstone (b00jrh7r)**

Summer

As the spring melts the winter snow, the full extent of Yellowstone is gradually revealed. Now, from the surrounding lowlands herds of elk, pronghorn and bison return from their winter feeding grounds to take advantage of America's richest natural grasslands - right in the heart of Yellowstone. In only a few weeks, a brutally harsh deep freeze has been transformed into a flower-decked nursery perfect for the year's newborn animals. There is also a new cast of characters that emerge bleary-eyed from hibernation as grizzly bears begin to teach their young the secrets of survival in Yellowstone - how to hunt fish in the still-frozen rivers and, as the season progresses, when to move out through valleys and grasslands into summer forests and up into Yellowstone's alpine peaks. In this spectacular wilderness, over 10,000ft high, they slide and scabble, hunting millions of tiny moths buried under rocks on the barren slopes.

But summer here is fickle - even on Midsummer's Day, winter can descend from the surrounding mountains bringing punishing snows to fragile flower meadows. August is the only month in the year when it does not snow, but then, just as it seems the easy living of summer has finally arrived, it is brought to an abrupt end as fires sweep through the forest, laying Yellowstone to waste.

Yellowstone is the most geothermally active place on earth.

There are 10,000 boiling springs, bubbling mudpots and fumeroles there, and more geysers than in all the rest of the world put together. For some, nature's fountains are more than just a marvel, they are an obsession. 'Geyser Gazers' have seen them all and can even imitate them.

Through the story of oil, the series offers a fresh perspective on British politics and society and a timely insight into the state of our economy today.

As the oil industry boomed in the early 1980s, workers up and down the country vied for jobs offshore. Under Margaret Thatcher, dozens of new platforms were built in the North Sea, bringing in millions of barrels of oil and billions of pounds of taxes to the Treasury. The economy was transformed as the fortunes of oil and banking soared, while Britain's traditional manufacturing industries declined.
