

## SATURDAY 30 APRIL 2011

**SAT 19:00 Tiger - Spy in the Jungle (b009r259)**  
Episode 1

Elephants carrying Trunkcam, Tuskcama and other spy cameras tell the story of four cubs growing up in the Indian jungle.

From the day their eyes open and they tumble out of the den, Tiger - Spy in the Jungle captures the lives of four tiger cubs as they grow up alongside their devoted mother. The elephants continue to film the young stars as they grow into adult hunters. Over two years, the elephants help capture the most intimate portrayal of tigers ever filmed. They also reveal the secret life of the other extraordinary creatures of the Indian jungle.

In the first programme, the elephants come upon the four 10-day-old tiger cubs. This is their mother's first litter and she has her paws full as they tumble from the den, only to be carried back to safety in her massive jaws.

As they grow they move from her milk onto meat. Fortunately the tigress is a skilled hunter. Charger, their imposing father, keeps his distance but helps to protect his vulnerable offspring from rogue male tigers and leopards. As they grow, they face encounters with sloth bears, pythons and pangolins. Their mother keeps them safe, until one day the cubs are left home alone and their arch rival, an Indian leopard, is about.

From spending the night in a Tudor farmhouse to recreating a bedtime 'bundling' courtship ritual, and from being publicly dressed as Queen Caroline in Hampton Court to experiencing the glamour of the 1930s boudoir, Lucy discovers that birth, marriage and death have all played a big part in the story of the bedroom.

**SAT 00:20 Holst: In the Bleak Midwinter (b010p530)**

The first ever full-length film about Gustav Holst, composer and revolutionary - a man who taught himself Sanskrit; lived in a street of brothels in Algiers; cycled into the Sahara Desert; allied himself during the First World War with a 'red priest' who pinned on the door of his church 'prayers at noon for the victims of Imperial Aggression'; hated the words used to his most famous tune, I Vow to Thee My Country, because it was the opposite of what he believed; and distributed a newspaper called the Socialist Worker. Holst's music - especially the Planets - owed little or nothing to anyone, least of all the English folk song tradition, but he was a great composer who died of cancer, broken and disillusioned, before he was 60.

## SUNDAY 01 MAY 2011

**SUN 19:00 A History of Christianity (b00ntrs7)**  
Catholicism: The Unpredictable Rise of Rome

Professor Diarmaid MacCulloch's grandfather was a devout pillar of the local Anglican church and felt that any dabbling in Catholicism was liable to pollute the English way of life. But now his grandfather isn't around to stop him exploring the extraordinary and unpredictable rise of the Roman Catholic church.

Over one billion Christians look to Rome, more than half of all Christians on the planet. But how did a small Jewish sect from the backwoods of 1st-century Palestine, which preached humility and the virtue of poverty, become the established religion of western Europe - wealthy, powerful and expecting unflinching obedience from the faithful?

Amongst the surprising revelations, MacCulloch tells how confession was invented by monks on a remote island off the coast of Ireland, and how the Crusades gave Britain the university system.

Above all, it is a story of what can be achieved when you have friends in high places.

**SUN 20:00 The Wonderful Wizard of Oz: The True Story (b00sjbw1)**

[Repeat of broadcast at 23:20 on Saturday]

**SUN 21:00 The Secret Life of Bob Monkhouse (b00x9b7w)**

The extraordinary story of comedian Bob Monkhouse's life and career, told through the vast private archive of films, TV shows, letters and memorabilia that he left behind.

**SUN 22:30 Story of Light Entertainment (b00792f0)**  
All Round Entertainers

Straight from the Victorian music halls with their traditional mix of song, dance and comic skit came the tradition of the all round entertainer - an artiste who could 'do it all'. But despite this incredible mix of skills and after ruling the world of light entertainment for years, their chief mode of employment was to become hosts of variety shows, game shows, quizzes and competitions. And whilst an obvious waste of their talents, it did provide huge fame and money, as game shows quickly became the biggest hits on TV.

But the all round entertainers are the masters of reinvention - from Bruce Forsyth to Michael Barrymore and Bob Monkhouse to Cilla Black, they adapted their skills to keep their place at the top of the slippery showbiz ladder, even as reality TV took hold of the schedules and fame rather than talent became a passport to TV stardom.

But becoming a jack of all trades brings its own problems, and unappreciated talents, fragile egos and a craving for attention have forever blighted the world of the all rounder.

Stars featured include Bruce Forsyth, Jimmy Tarbuck, Cilla Black, Brian Conley, Joe Pasquale, Lionel Blair, Una Stubbs, Michael Grade and many more.

**SUN 00:00 Legends (b00fzv3y)**

Roy Orbison - The 'Big O' in Britain

Roy Orbison was the best singer in the world. That's what Elvis Presley said, and he should know.

To mark the 20th anniversary of Orbison's death, this programme celebrates the extraordinary talent of 'The Big O' and his relationship with his most loyal and enduring fans, British musicians and the British public. Through a combination

of interview and archive, it charts Orbison's career in Britain, from the sell-out tour with the Beatles that sky-rocketed him to international superstardom, right up to the collaboration with lifelong friend George Harrison on the Travelling Wilburys project in the late 1980s. Effortlessly cool, musically sophisticated, Orbison was a rock and roll legend, whose legacy continues to captivate both the listeners and performers of today.

**SUN 01:00 Roy Orbison Live in 1965: The Monument Concert (b010q7qs)**

To honour what would have been Roy Orbison's 75th birthday on April 23rd, a celebration of the legend of the quiet Texan with the soaring voice who toured with the Beatles, sang some of the defining hits of the early 60s and brilliantly revived his career as a solo artist and member of the supergroup the Travelling Wilburys in the mid-80s.

Filmed in black and white in Holland in 1965, this short concert features the Big O performing hits from the classic catalogue of songs he recorded for the American independent label Monument in the early 60s. Filmed in what appears to be a gym or school hall in front of an appreciative but respectful audience, Orbison performs Only the Lonely, Running Scared, It's Over, Oh Pretty Woman and more.

**SUN 01:25 Roy Orbison and Friends: A Black and White Night (b00g6349)**

First broadcast in 1988 and filmed in black and white (hence the title!), this TV concert classic features Roy Orbison performing his classic songs with friends like Bruce Springsteen, Tom Waits, Elvis Costello, Jackson Browne, kd lang, Jennifer Warnes and Bonnie Raitt.

**MON 19:30 The Weather (b00jzjhx)**  
Winds

Documentary series about the weather. This episode looks at wind - a phenomenon caused by the interaction of temperature, pressure and the earth's rotation, which took scientists over a thousand years to fully explain.

We witness some remarkable wind-related stories, such as the tornado that flung Dorothy Allwright and her caravan into the air, and how Scottish engineer James Blyth invented the first electricity-producing wind turbine in 1887.

Once we looked to the gods to explain the wind, until science unlocked its mysteries. Today, we may have come to understand the wind, but we have also realised that we will never master it, and that this elemental force cannot be ignored.

**MON 20:30 Canal Walks with Julia Bradbury (b010v7kx)**  
The Caledonian Canal

Seasoned stomper Julia Bradbury dons her walking boots once again and this time she is exploring her own British backyard, travelling along the country's network of canals and their accompanying towpath trails. This sees her navigating Highland glens, rolling countryside and river valleys, as well as our industrial heartlands, following these magical waterways as they cut a sedate path through some of the country's finest scenery.

Julia kicks off her tour with a visit to the Scottish Highlands. Against the stunning backdrop of Ben Nevis, her walk starts near Fort William where she embarks on her eight-mile trip along the Caledonian Canal, the majestic waterway that cuts through beautiful mountain country and is regarded as one of the most ambitious canals of its time. Julia's journey tells the story of one of the greatest canal engineers, Thomas Telford, whose ambition was to create not only an engineering marvel, but also badly needed jobs and wealth for the Highlands. Two hundred years on, it is now one of the most popular walking trails in the country.

**MON 22:00 Chemistry: A Volatile History (b00qck1t)**  
The Order of the Elements

The explosive story of chemistry is the story of the building blocks that make up our entire world - the elements. From fiery phosphorus to the pure untarnished lustre of gold and the dazzle of violent, violet potassium, everything is made of elements - the earth we walk on, the air we breathe, even us. Yet for centuries this world was largely unknown, and completely misunderstood.

In this three-part series, professor of theoretical physics Jim Al-Khalili traces the extraordinary story of how the elements were discovered and mapped. He follows in the footsteps of the pioneers who cracked their secrets and created a new science, propelling us into the modern age.

In part two, Professor Al-Khalili looks at the 19th-century chemists who struggled to impose an order on the apparently random world of the elements. From working out how many there were to discovering their unique relationships with each other, the early scientists' bid to decode the hidden order of the elements was driven by false starts and bitter disputes. But ultimately the quest would lead to one of chemistry's most beautiful intellectual creations - the periodic table.

**MON 23:00 Rubicon (b010p6br)**

**TUE 20:30 Johnny Kingdom's Year with the Birds (b00vzz1g)**  
Episode 3

Johnny Kingdom, gravedigger-turned-amateur filmmaker spends a year recording the bird life in and around his home on his beloved Exmoor.

Johnny has spent three years creating a wildlife habitat on his 52-acre patch of land on the edge of Exmoor. He's been busy nailing nest boxes on tree trunks, planting a wildflower meadow, dredging his pond, putting up remote cameras and wiring them up to a viewing station in his cabin on the land - all the time hoping against hope that not only will he attract new wildlife but also that he will be able to film it.

He is turning his attention to the bird life, hoping to follow some of the species he finds near his home and on his land, across the seasons. We see the transitions from the lovely autumn mists of the oak wood, through the sparkling snow-clad landscape of a north Devon winter, into spring's woodland carpet of bluebells and finally the golden glow of early summer.

The bulk of the series is from Johnny's own camera. Don't expect the Natural History Unit - instead expect passion, enthusiasm, humour and an exuberant love of the landscape and its wildlife.

As spring moves into summer, Johnny is relieved to find a healthy brood of wren chicks and heartened to see that some adults did survive the cold winter. He is thrilled with his footage of swallow chicks, but now faces the challenges of getting close-up shots of the woodpecker chicks and finding a pair of barn owls to film.

Johnny's old friend Bob tries to help out with the woodpecker chicks by fixing a camera on a long pole and Johnny returns to one of his old hides in an attempt to film owl chicks. While Bob's camera brings mixed results, the owl footage is an overwhelming success.

**FRI 21:00 Classic Albums (b010v8kh)**

Primal Scream: Screamedelica

Primal Scream's seminal album Screamedelica was released in 1991, and synthesized the band's rock 'n' roll roots with the dance culture of that time; for many, the album's sound and imagery came to be regarded as quintessential symbols of the acid house era, perfectly catching the spirit and mood of the early 90s.

Using rare archive footage and special performances, this film tells the story of Screamedelica and its hit singles and dance anthems Loaded, Movin' On Up, Come Together and Don't Fight It, Feel It. From the formation of the band in Glasgow to winning the first-ever Mercury prize, the band members explain the record's inception with insights from main producer Andrew Weatherall, Creation Records founder Alan McGee and many others involved with or inspired by this joyful record.

Screamedelica both defines a generation and transcends its time, and is a true Classic Album.

**FRI 22:00 Movin' on Up: Pop Hits from 1991 (b010w8t0)**

BBC archive compilation exploring 1991's fellow travellers from the British indie guitar and dance scenes that accompanied Primal Scream's breakthrough Screamedelica album, which went on to win the inaugural 1992 Mercury Prize.

In the interim between Madchester and Britpop, a new British indie pop flourished that included dance-influenced guitar bands, indie-influenced dance outfits and the gearchanging hits of both the grunge spearhead that was Nirvana and those American alternative rockers REM.

Alongside Primal Scream's Movin' On Up are performances from The Late Show, Top of the Pops and other shows by the likes of Ride, Ned's Atomic Dustbin, Pop Will Eat Itself, KLF, Massive Attack, Nirvana and REM, alongside many other intriguing moments from what was once called the 'shoegazing' era.

**FRI 23:00 Seven Ages of Rock (b007rtpn)**

What the World is Waiting For: Indie Rock

The journey through the history of rock music climaxes with a focus on British indie music.

Although once associated with social misfits seeking refuge from the bright processed pop then dominating the charts, The Smiths' first Top of the Pops appearance in 1983 paved the way for the hugely influential Madchester music scene.

However, it was the iconoclastic influence of Suede and intense media attention in the Blur v Oasis chart battles in the nineties that brought Britpop to a wider audience. Revealing interviews and rarely seen archive offers an insight into the story which ends with the recent reinvention of Indie by bands like The Libertines, Franz Ferdinand and The Arctic Monkeys.
