SUN 21:00 Swallowed by the Sea: Ancient Egypt's Greatest Lost City (b04lss20)

Documentary following a team of maritime archaeologists as they uncover the remarkable city of Heracleion, lost to the sea and forgotten for over two thousand years.

In the fading days of the pharaohs, the city of Heracleion was the gateway to Egypt and a port beyond compare. In the 4th century BC, this was an opulent and prosperous place adorned with statues and sphinxes. It was a city of religious significance and home to the temple of Amun. In the 2nd century BC it was wiped off the face of the earth. In a mysterious subsidence, the coastline dropped by over 20ft and Heracleion was consumed by the sea. The lost city slept for centuries beneath the waters of the Mediterranean.

In 2000, archaeologists made an incredible find. Using ancient texts, they discovered the city's remains six kilometres off the Egyptian coast and only 10 metres underwater. Pristine preserved, it is an archaeological jewel - an ancient Egyptian city frozen in time. The glorious temples, statues, houses and boats of the cities lie perfectly preserved by the sea, providing a snapshot of ancient Egyptian life. But many mysteries remain. What caused this sacred city to plunge into the sea? And why did its inhabitants deliberately sink over 65 ancient warships?

SUN 00:10 Secret Knowledge (b03z08mv)

Hogarth - One Man and His Pug

To mark 250 years since William Hogarth's death, ceramics expert and self-confessed Hogarth fanatic Lars Tharp is

determined to solve a mystery that has consumed his personal and professional life - the case of Hogarth's lost pug.

In this unique shaggy dog story, Tharp explains Hogarth's obsession with this most characterful of breeds and the pivotal role it played in his life and his work. A canine odyssey that only examines one of his most iconic works of art, but leads us into a world of satire, salaciousness and secrets. From harlots and rakes to the shadowy machinations of the freemasons, Tharp's ultimate goal is to lead an appeal to the nation to help him recover a rare piece of long-lost Hogarth memorabilia - a precious terracotta sculpture of his beloved pet pug.

For Tharp, this is the perfect moment in which to pay tribute to a man whom he regards as our greatest and most influential artist - and what better way to explore a man famed for his wit and humour than on the trail of his most iconic and idiosyncratic four-legged companion.

SUN 00:40 The Fairytale Castles of King Ludwig II with Dan Cruickshank (b036f9vc)

Ludwig II of Bavaria, more commonly known by his nicknames the Swan King or the Dream King, is a legendary figure - the handsome boy-king, loved by his people, betrayed by his cabinet and found dead in tragic and mysterious circumstances. He spent his life in pursuit of the ideal of beauty, an ideal that found expression in three of the most extraordinary, ornate architectural schemes imaginable - the castle of Neuschwanstein and the palaces of Linderhof and Herrenchiemsee. Today, these three buildings are among Germany's biggest tourist attractions.

In this documentary, Dan Cruickshank explores the rich aesthetic of Ludwig II - from the mock-medievalism of Neuschwanstein, the iconic fairytale castle that became the inspiration for the one in Walt Disney's Sleeping Beauty, to the rich Baroque splendour of Herrenchiemsee, Ludwig's answer to Versailles. Dan argues that Ludwig's castles are more than flamboyant kitsch and are, in fact, the key to unravelling the eternal enigma of Ludwig II.

SUN 01:45 The Riviera: A History in Pictures (b01ps9jr)
Painting Paradise

Two-part sun-filled series in which Richard E Grant follows in the footsteps of artists who have lived, loved and painted on France's glorious Cote d'Azur.

Revealing the intertwined relationship between modern art and the development of the French Riviera as an international tourist haven, Grant explores how impressionist painters Cezanne, Monet and Renoir first discovered the region in the 19th century when the newly built railway arrived there.

Captivated by the light and colour of this undiscovered landscape, the painters immortalised its shores on canvas and in doing so advertised the savage beauty of the region. For neo-impressionists Paul Signac and Henri-Edmond Cross, the region provided a vision of utopia, while for Henri Matisse the vivid colours of the area inspired him to adopt a new palette and in doing so set modern art en route to abstraction.

With visits to L'Estaque, St Tropez and Nice, Grant maps the progress of the region from cultural backwater to bohemian hotspot.

MON 19:30 Iolo's Snowdonia (b09rjs4p)
Series 1

Episode 3

Over four seasons, Iolo Williams goes to his favourite locations in Snowdonia to look for stunning wildlife, and meets people who help him discover the national park's true nature. In this episode, it is autumn and Iolo takes us to hidden wildernesses with outstanding views of the season's colours and the big mountains of Snowdonia. On the lower slopes of the Carneddau range, red squirrels have returned to the national park after disappearing some 40 years ago. Below the magnificent Aber

Falls, with its 37-metre drop from the high peaks, jays collect acorns in an ancient woodland. Iolo finds fascinating old sheepfolds and Wales's native black cattle breed on the high slopes - both relics of a time when many more people lived and worked on the uplands and evidence of Snowdonia's changing nature. However, some things remain the same - wild goats rut on the Rhinog Mountains, a tawny owl and bats take up residence in an old church near Dolgellau and, in a nearby wood, dormice fatten up for hibernation. Also, the first whooper swans arrive back from Iceland to a lake below Snowdon - a sure sign that winter is on its way.

MON 20:00 Life (b00p90d6)
Plants

Plants' solutions to life's challenges are as ingenious and manipulative as any animal's.

Innovative time-lapse photography opens up a parallel world where plants act like fly-paper, or spring-loaded traps, to catch insects. Vines develop suckers and claws to haul themselves into the rainforest canopy. Every peculiar shape proves to have a clever purpose. The dragon's blood tree is like an upturned umbrella to capture mist and shade its roots. The seed of a Bornean tree has wings so aerodynamic they inspired the design of early gliders. The barrel-shaped desert rose is full of water. The heliconia plant even enslaves a hummingbird and turns it into an addict for its nectar.

But having spent 20 years at the top of his sport, Chris isn't about to settle for a quiet life. Instead, he swaps two wheels for four to pursue his boyhood dream of competing in the world's toughest endurance motor race, the Le Mans 24 Hours.

We follow Chris as he attempts to prove himself on the race track as he has in the velodrome. By early 2016, he is poised to join the highly successful Le Mans race team - Greaves Motorsport. But Chris's hopes of a podium finish are crushed when the team has to withdraw their car. With less than three months until race day, he finds a seat with a rookie team who have never raced at Le Mans before. Chris has to learn a new car, battle with its teething troubles and work with a team whose operation is a world away from British cycling's obsessive attention to detail.

As Le Mans 2016 begins in torrential rain, competitors are reminded of the danger - 22 drivers have died since it began in 1923 and cars crash out with frightening regularity. Can Chris's team even make it through the 24 hours? And when technical troubles flare less than an hour into the race, there is a good chance that he won't even get on the track. Will Chris and his team fail the ultimate test of man and machine?

MON 23:00 Jerusalem: The Making of a Holy City (b017znj7)
Wellspring of Holiness

Jerusalem is one of the oldest cities in the world. For the Jewish faith, it is the site of the Western Wall, the last remnant of the second Jewish temple. For Christians, the Church of the Holy Sepulchre is the site of the death and resurrection of Jesus Christ. For Muslims, the Al-Aqsa mosque is the third holiest sanctuary of Islam.

In episode one, Simon delves into the past to explore how this unique city came into being, explaining how it became of such major importance to the three Abrahamic faiths, and how these faiths emerged from the Biblical tradition of the Israelites.

Starting with the Canaanites, Simon goes on a chronological journey to trace the rise of the city as a holy place and discusses the evidence for it becoming a Jewish city under King David. The programme explores the construction of the first temple by Solomon through to the life and death of Jesus Christ and the eventual expulsion of the Jews by the Romans, concluding in the 7th century AD, on the eve of the capture of Jerusalem by the Muslim caliph, Umar ibn al-Khattab.

MON 01:00 Architects of the Divine: The First Gothic Age (b04mq9x6)

Medieval historian Dr Janina Ramirez looks back to a time when British craftsmen and their patrons created a new form of architecture. The art and architecture of France would dominate England for much of the medieval age. Yet British stonemasons and builders would make Gothic architecture their own, inventing a national style for the first time - Perpendicular Gothic - and giving Britain a patriotic backdrop to suit its new ambitions of chivalry and power. From a grand debut at Gloucester Cathedral to commemorate a murdered king to its final glorious flowering at King's College Chapel in Cambridge, the Perpendicular age was Britain's finest.

MON 02:00 How to Be a Surrealist with Philippa Perry (b0816qd8)

Among her surrealist adventures, Philippa sets up her own Bureau of Surrealist Research on the streets of Paris and invites members of the public to tell her their dreams, she uncovers the role of women in the surrealism movement and has a go at being an artist's muse herself, rolls up her sleeves to try some surrealist techniques with art critic Adrian Searle, and puts on a screening of Dali and Bunuel's famous film Un Chien Andalou for a group of unsuspecting art students.

The Telescope

'The telescope gave us what might be the greatest discovery of all - the universe itself.' - Jim Al-Khalili

Jim Al-Khalili and a team of experts explore the fascinating story of one of our greatest inventions, the telescope, using original notebooks, stylish visualisations and sophisticated computer graphics. It is a tale full of twists and turns, involving a seashore plant, a New York property boom and a split bottle of mercury. Thanks to these events, the telescope allowed us to discover not just our place in the cosmos, but our origins too.

Jim travels to eighth-century Baghdad to witness the first experiments in optics. Many regard this as the birth of science itself, culminating in Ibn al-Haytham's extraordinary book explaining how light can be manipulated.

In 12th-century Venice, a secret process using a seashore plant allows the manufacture of clear glass and with that, the first precision lenses. 250 years later a Dutch optician makes a chance observation: a particular arrangement of lenses magnifies distant objects. Months later, an Italian mathematics teacher, Galileo, constructs his own version and points it into the night sky. It is a revolution not just in astronomy but also in humanity's perception of itself.

In Paris, an accident with mercury allows Louis Daguerre to make highly sensitive photographic plates. Now cameras are attached to telescopes allowing celestial images to be analysed with mathematical precision. Later, a New York property boom allows a wealthy donor to fund a full-sky survey. Working on this project, Henrietta Leavitt notices that some stars undergo regular changes in brightness, which allows astronomers to measure their distance from the Earth. Edwin Hubble, using Leavitt's discovery, measures the vast distances of entire galaxies. Hubble also discovers that the universe is expanding, implying that before the Big Bang, it must all have been in the same place.

With the Hubble Space Telescope, we have reached the limits of our vision, but a new generation of telescope is about to be launched. The James Webb Space Telescope will see as far as it is possible to see, revealing new features of the vast universe we call home.

FRI 21:00 Smashing Hits! The 80s Pop Map of Britain and Ireland (b0b99nq0)

Series 1

Episode 1

Two 80s icons explore the distinct sounds that came out of different parts of Britain and Ireland in one of pop's golden decades.

Midge Ure, lead singer of Ultravox and one of the men behind Band Aid, and Kim Appleby, who had a string of hits with her sister Mel in the Stock, Aitken and Waterman-produced band Mel and Kim, go on a journey back in time to the 80s to figure out why certain cities produced their own diverse tunes.

It's a fascinating tale. Emerging from the ashes of punk, British and Irish music ripped up the pop rule book in the 80s and topped the charts worldwide. But there was no definitive 'British' pop sound. Innovative chart-toppers were being produced by artists hailing from all over the UK and Ireland.

In this first episode, Midge Ure and Kim Appleby explore London's new romantic movement, travel to Coventry to investigate the rise of ska and speak to some of Sheffield's electronic music pioneers.

The show features interviews with key figures, like Gary Kemp from Spandau Ballet, Marco Pirroni from Adam and the Ants, Pauline Black from The Selecter, Martin Ware and Glenn Gregory from Heaven 17 and 'super-producer' Trevor Horn. But of course the star is the music - and this episode includes some of the best tunes, videos and performances from the early part of this marvellous musical decade.

On the Road

Music promoter John Giddings takes us on an entertaining ride behind the stage lights to tell the story of how live performance has become a billion-pound industry.

As the founder and promoter of the modern Isle of Wight festival and one of the world's biggest live promoters, John knows more than most how to put a show on the road. And how the world of live performance has changed.

Where once bands would tour to promote an album, in the age of downloads and disappearing record sales, the live arena is a huge business. Bigger than ever before.

For a genuine behind-the-scenes insight into the scale and logistics of the modern mega-tour, John takes us backstage at U2's latest stadium spectacular. We also join John behind the scenes at Isle of Wight 2017, the festival he runs and where Rod Stewart and Run DMC are among the big names on the line-up.

But we also travel back to tell the story of the original Isle of Wight Festival, where a bunch of young promoters with big ideas persuaded Bob Dylan, The Who and Leonard Cohen to perform. A tale of unpaid artists, frantic last-minute negotiations and general mayhem, it was an event that transformed the music industry. And for a young John Giddings, who was in the audience, it was the beginning of a whole career.

Along the way, some of the biggest names in rock and pop share their insights from life on the road and how the world of live performance has changed.

Phil Collins reminisces about his youthful trips to the Marquee Club. Earth, Wind & Fire reveal the extraordinary planning that went into their theatrical stage shows. Stewart Copeland recalls The Police's pioneering international tours, including a memorable visit to India at the invitation of a local women's organisation, The Time and Talents Club. Melanie C talks of her nerves taking to the road with the Spice Girls, who unlike most touring bands had no real experience of live performance. And Alex James remembers the thrill of live performance but also the reality behind some of their tours... not just to please the fans but to pay the taxman.

FRI 00:00 The Irish Rock Story: A Tale of Two Cities (b0555xv8)

Film telling the story of how rock music helped to change Ireland. The 40-year-old story of Irish rock and pop music is grounded in the very different musical traditions of the two main cities of the island, Belfast and Dublin.

This musical celebration charts the lives and careers of some of the biggest selling acts in Irish rock, punk and pop from Van Morrison and Thin Lizzy to The Undertones and U2. From the pioneers of the showbands touring in the late 50s through to the modern day, the film examines their lineage and connections and how the hardcore, rocking sound of Belfast merged with the more melodic, folkly Dublin tradition to form what we now recognise as Irish rock and pop.

The film explores where these bands and musicians came from and the influence the political, social and cultural environments of the day had on them and how the music influenced those environments.

With contributions from many of the heavyweights of Irish rock and pop, including U2, Sinead O'Connor and Bob Geldof, it follows their careers as they forged an international presence and looks at how they helped change the island along the way.
